

**huthphoto**  
is  
**hiring!**

## Are you a beginning portrait/headshot photographer, looking to grow your career?

We're adding to our rapidly expanding portrait & headshot business.  
(Team members may also be considered for our other photo work areas after training.)

People skills, good camera & lighting skills, reliability, teamwork, plus flexible availability are a must. Specific headshot experience, studio lighting skills, and some photo editing experience is a plus.

### Why Apply?

Our photo Team is the perfect place to jump-start your career, be mentored, and take some awesome images at cool gigs.

Photo assisting is super simple, and a GREAT training ground without pressure... plus you're getting paid to improve your photography.

We are employers with payroll, so you get the advantages of being a part-time employee, and not just a solo 1099 freelancer out there on your own.

We are PR/Commercial photographers and cover a wide variety of interesting projects, so trainees learn a ton about photography, lighting, tech, business, etc.

You'll start by assisting on our headshot days, with the potential to be assigned simple photo gigs as well.

**NOTE: For the right person, there's a career path to be our headshot day Team Lead.**

### The work includes but is not limited to:

- Help lead photographers get equipment to the location, and set up/teardown (lots of physical work: standing, bending, lifting, pulling a cart, etc. must be OK)
- Learn our setup, systems, and the style our clients hire us for
- Following detailed equipment instructions and workflow with portrait subjects
- Learning to take a series of portraits in the HuthPhoto style, and to match client specs
- Act totally professional while interfacing with clients & photo subjects

## The photographers we are looking for have these qualities & skills:

- Flexible, friendly personality, who enjoys helping people look their best
- Reliable, organized, good communicator
- Solid photo & tech skills, teachable, and always wanting to learn more
- Work well as a TEAM, often under busy, demanding situations
- Comfortable setting up photo equipment: tripods, light stands, backgrounds, etc (training available)
- Strong business skills to take care of clients in a professional way
- Portable flash skills is critical (training is available) and studio light experience a plus
- Ability to work well independently with little need for client direction
- Expecting to be in the Triangle area for a few years
- A body of work/portfolio (with examples of portraits)

## Requirements: please ONLY apply if you:

- are easily within 20 min from Durham/Chapel Hill during rush hour
- include a resume and link to professional quality photography (OK if you are newer, but you should have relevant, paid work to show)
- have a VERY flexible schedule (this is NOT possible if you have a full-time or strict part-time hours... ideally, you are free other than doing your own client photo work)
- link us to your website, professional Instagram, and/or galleries of client work
- are looking for a photography career, not just to pick up occasional photo work

**\*\* we will not respond to enquiries without the above requirements \*\***

## Interested? Send your resume to [office@huthphoto.com](mailto:office@huthphoto.com)

and MUST link a portfolio of professional images (portrait/headshot, Public Relations/Event photo work)

## What our employees say about HuthPhoto:

“I’ve loved working at HuthPhoto for the past year and a half! It’s a super fun, supportive, and kind working environment, and I’ve grown so much as a photographer with Ken and Colin’s guidance and feedback. I can’t recommend it enough!” Erin S.

“Moving to Durham recently from the Philippines and joining the HuthPhoto Team has given me (and my friend Daryl, who I also referred for a HuthPhoto job!) our foundation here in USA. This has given us open doors, and a home away from home for my whole family.” Rajha T.

“This is hands-down the best work environment I’ve ever been a part of. From the thoroughness of training to the lovely clients, to the interesting variety of day-to-day tasks, I always look forward to coming to work. The Huths are wonderful owners and even better bosses.” - Lizzie P.
